

Press Release

Certificate of Networthiness

Tempe, AZ. — June 10, 2010 — LYNXPM, L.L.C., a leading provider of secure photo management software, is proud to announce today the receipt of the Certificate of Networthiness (CoN) from the U.S. Army Network Enterprise Technology Command (NETCOM) for Lynx Enterprise, (version 5.5). The CoN is a requirement for all enterprise software products that operate in the Army Enterprise Infrastructure network.

The Certificate of Networthiness earned by LYNXPM, L.L.C. requires compliance with rigorous standards established by the United States Army and involves in-depth testing against validated guidelines. It's an indicator that LYNXPM, L.L.C. has met the Army's highest standards for security, compatibility, and sustainability. In addition to the U.S. Army, the CoN applies to all Army Reserve, National Guard, and Department of Defense organizations on the Army Enterprise Infrastructure network.

"The Army Certificate of Networthiness is recognized as a benchmark for security, compatibility, and sustainability validation," said Robert Adams, President of LYNXPM, L.L.C., "The receipt of the Army CoN is essential to our Army Corps offices and Department of Defense clients and provides further evidence of the quality of our products," he finished.

The U.S. Army, as well as other government and private industry organizations, uses LYNXPM, L.L.C.'s Secure Photo Management Software solutions to manage, improve, and coordinate digital media world-wide while adhering to strict security guidelines to help improve compliance and risk management initiatives.
